SUMMARY

I build complete products and businesses from scratch. Before moving to the US in 2021 with \$400 in my pocket, I ran e-commerce businesses that did \$248k, built 56 landing pages, and created 2 staffing agencies from zero. After moving here, I launched an AI therapy app (173 users, live on App Store), built a partner platform with 50+ users, and I'm now working on my next AI product. I don't just code - I figure out what needs to exist, design it, build it, and launch it. Whether it's a mobile app, a web platform, or an entire business operation, I've done it multiple times.

EDUCATION

Dniprovskiy Industrial College | Bachelor's in Management and Personnel Administration | GPA: 3.7/4.0 Mar 2010 | Dnipro, Ukraine

EXPERIENCE

AI SEO Content Platform | **Founder & Technical Lead** Oct 2025 - Present | U.S. Remote
Building automated AI-powered SEO blogging platform enabling users to generate and publish optimized content at scale.

Technical Execution:

- Architecting multi-layer AI content generation system using OpenAI and Anthropic APIs
- Building automated SEO optimization, internal linking, and content quality validation
- Designing scalable infrastructure on Google Cloud Platform
- Creating user-friendly interface for non-technical blog owners

Impact: Developing MVP to validate market demand for AI-powered content automation tools..

MyWhy Inc. (AI Therapist) | **CTO & Co-Founder** Dec 2023 - Present | U.S. Remote
Built complete AI mental health app from idea to App Store/Google Play launch

Product Development:

- Designed entire product in Figma, coded it in Dart/Flutter for iOS, Android, and Web
- Integrated OpenAI API for conversational AI, Firebase for backend, deployed on Google Cloud
- Got 173 actual users - recruited first 70 testers myself, built features based on their feedback
- Created partners.mywhyai.com referral platform in React - 50+ active partners now

Technical Stack: Flutter, Firebase, OpenAI API, Google Cloud, multilingual NLP

AI Data Operations | **Multiple Platforms (Telus, Outlier, Stellar, Appen)** Sep 2022 - Present | U.S. Remote
Worked on AI model training across 50+ multilingual datasets.

- Designed evaluation workflows, provided feedback to improve model performance
- Deep understanding of AI data quality requirements and model training processes

Real Estate Marketplace | **CTO & Product Lead** Jan 2021 - Jul 2021 | Dnipro, Ukraine
Led technical team building marketplace from zero to launch in 4 months.

- Managed 11-person team (hired and trained them in 1 month)
- Django/Python backend, JavaScript frontend, PostgreSQL database
- Owned product roadmap, feature prioritization, technical architecture
- Helped train 12 people on sales processes

E-Commerce & Staffing Businesses | Founder/Manager 2015 - 2021 | Ukraine/Poland
Built multiple businesses from scratch while learning everything about operations.

- Created 16 e-commerce stores that generated \$248k total revenue - did everything: site building, advertising, inventory, sales, customer support
- Built 56 landing pages using Tilda, HTML, CSS, JavaScript, PHP
- Ran \$120k+ in Facebook/Instagram ads, also managed Google Ads campaigns
- Implemented 5 different CRM systems across businesses
- Started 2 staffing agencies in Poland - grew from 0 to 16 employees in 6 months

SKILLS & LANGUAGE
